

Plugs and Connectors

SCHUKO and French/Belgian Standard

Techna offers a comprehensive choice of SCHUKO and French/Belgian Standard premium quality Plugs and Connectors, suitable for use under difficult conditions. Thanks to innovative technological features and robust and durable materials, the Compact, Original, Hightech, Expert and Professional series of plugs and connectors are the first choice for trade, construction and industry, covering virtually all of your power connection needs.

Our SCHUKO and French/Belgian plugs and connectors are UV resistant and have very good resistance to most oils, greases, solvents and cleaning agents, hydrocarbons as well as organic and inorganic bases in normal concentrations.

High-Performance Materials

Elamid Plastic

To achieve exceptional durability and impact resistance, our SCHUKO and French/Belgian Standard products are made from Elamid, a high performance plastic. With their UV resistance, as well as their exceptional heat and cold resistance to -40°C , Elamid products, especially the Hightech Series, are ideal for professional use in trade and industrial applications.

2K Technology

Thanks to innovative Elamid 2K technology, a perfect synthesis of rubber and Elamid has been achieved. Resulting in very high-quality products that stand out even under demanding conditions, such as on construction sites or in industry. Thanks to Elamid 2K, our plugs and connectors from the Professional Series are extremely robust, non-slip and retain their shape.

High-Performance Features

- Made of durable and sustainable materials
- High stress loading capacity
- Easy to assemble
- Convenient to wire
- High quality sealing in the cable entry
- Suitable for cable size 0.75mm^2 to 2.5mm^2
- UV and media resistant

Voltage Indicator

The Professional Series connectors feature a voltage indicator, ensuring easy visualisation on construction sites.

Quick Release Lock

The Expert and Professional Series feature a quick release lock to assemble the grip and contact carrier easily and quickly.

Compact Plugs and Connectors

Our Compact range of plugs and connectors are small in size, made of durable materials and designed for indoor use under low mechanical stress, e.g. for lightweight hand-held devices and electrical appliances. This range offer plugs with a dual earth system and two different connector options, available in black, grey or white.

Compact Plugs (with Dual Earth System)

- 2 Pole + Earth, 16A, 250V
- Cable size 3 x 0.75mm² to 3 x 1.5mm²
- DIN VDE 0620 / NF C61-314, NBN C61-112
- IP20

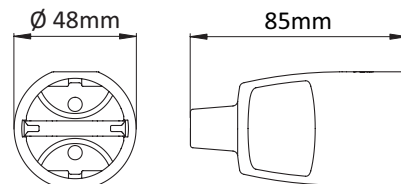

Part No.	Colour	Standard
A100000044	Black	SCHUKO & French/Belgian
A100000046	Grey	SCHUKO & French/Belgian
A100000047	White	SCHUKO & French/Belgian

Compact Connectors

- 2 Pole + Earth, 16A, 250V
- Cable size 3 x 1mm² to 3 x 1.5mm²
- DIN VDE 0620
- IP20

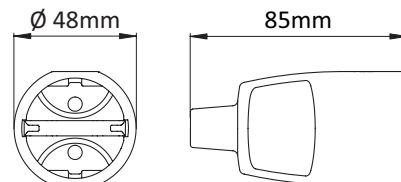

Part No.	Colour	Standard
A100000057	Black	SCHUKO
A100000059	Grey	SCHUKO
A100000060	White	SCHUKO

Compact Connectors (with Shutter)

- 2 Pole + Earth, 16A, 250V
- Cable size 3 x 1mm² to 3 x 1.5mm²
- DIN VDE 0620 / NF C61-314, NBN C61-112
- IP20

Part No.	Colour	Standard
A100000055	Black	SCHUKO
A100000056	White	SCHUKO
A100000061	Black	French/Belgian
A100000062	Grey	French/Belgian
A100000063	White	French/Belgian

Original Plugs and Connectors

Our Original range of plugs and connectors are made of durable materials, have a comfortable grip and are designed for heavy mechanical stress, e.g. on power tools and DIY equipment in workshops and commercial operations. This range offer plugs with a dual earth system and connectors with or without a protective cover, available in black only.

Original Angled Plug (with Dual Earth System)

- 2 Pole + Earth
- 16A, 250V
- Double Laminated Seal
- For connection of cable size 3 x 0.75mm² to 3 x 2.5mm²
- DIN VDE 0620 / NF C61-314, NBN C61-112
- IP44, IK08

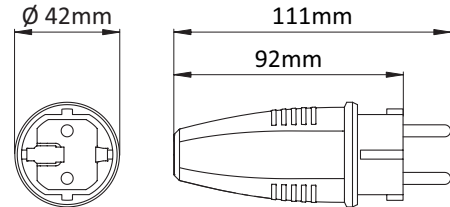

Part No.	Colour	Standard
A10000040	Black	SCHUKO & French/Belgian

Original Plug (with Dual Earth System)

- 2 Pole + Earth
- 16A, 250V
- Triple Laminated Seal
- For connection of cable size 3 x 0.75mm² to 3 x 2.5mm²
- DIN VDE 0620 / NF C61-314, NBN C61-112
- IP44, IK08

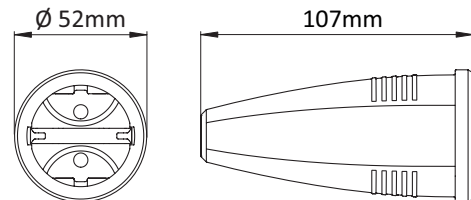

Part No.	Colour	Standard
A10000039	Black	SCHUKO & French/Belgian

Original Connector

- 2 Pole + Earth
- 16A, 250V
- Triple Laminated Seal
- For connection of cable size 3 x 1mm² to 3 x 2.5mm²
- DIN VDE 0620 / NF C61-314, NBN C61-112
- IP20, IK08

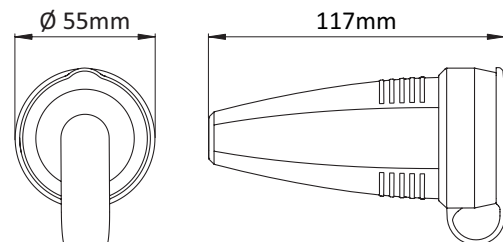

Part No.	Colour	Shutter	Standard
A10000048	Black	No	SCHUKO
A100000375	Black	Yes	French/Belgian

Original Connector (with Protective Cover)

- 2 Pole + Earth
- 16A, 250V
- Triple Laminated Seal
- For connection of cable size 3 x 1mm² to 3 x 2.5mm²
- DIN VDE 0620 / NF C61-314, NBN C61-112
- IP44, IK08

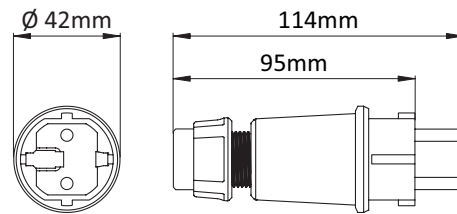

Part No.	Colour	Shutter	Standard
A10000049	Black	No	SCHUKO
A100000376	Black	Yes	French/Belgian

Hightech Plugs and Connectors

Our Hightech Series of plugs and connectors are made of resilient high-performance Elamid plastic and are suitable for use under difficult conditions, e.g. on construction sites or in agricultural farms.

The Hightech range offer plugs with a dual earth system and a choice of three different connector styles, available in black, red, blue or orange. These plugs and connectors have a maximum load capacity up to 1 tonne and include a screwed seal.

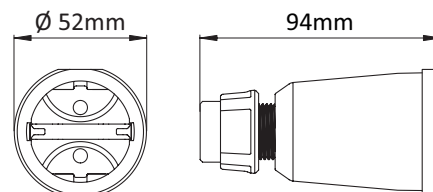

Hightech Plugs (with Dual Earth System)

- 2 Pole + Earth, 16A, 250V
- Cable size 3 x 0.75mm² to 3 x 2.5mm²
- DIN VDE 0620 / NF C61-314, NBN C61-112
- IP54 / IK08

Part No.	Colour	Standard
A100000064	Black	SCHUKO & French/Belgian
A100000065	Red	SCHUKO & French/Belgian
A100000066	Blue	SCHUKO & French/Belgian
A100000067	Orange	SCHUKO & French/Belgian

Hightech Connector

- 2 Pole + Earth, 16A, 250V
- Cable size 3 x 1mm² to 3 x 2.5mm²
- DIN VDE 0620 / NF C61-314, NBN C61-112
- IP20 / IK08

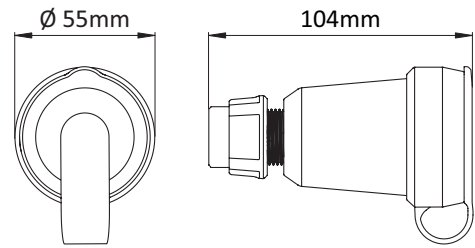

Part No.	Colour	Shutter	Standard
A100000073	Black	No	SCHUKO
A100000074	Red	No	SCHUKO
A100000075	Blue	No	SCHUKO
A100000212	Orange	No	SCHUKO
A100000088	Black	Yes	French/Belgian
A100000089	Red	Yes	French/Belgian
A100000090	Blue	Yes	French/Belgian
A100000213	Orange	Yes	French/Belgian

Hightech Connector (with Protective Cover)

- 2 Pole + Earth, 16A, 250V
- Cable size 3 x 1mm² to 3 x 2.5mm²

- DIN VDE 0620 / NF C61-314, NBN C61-112
- IP44 / IK08

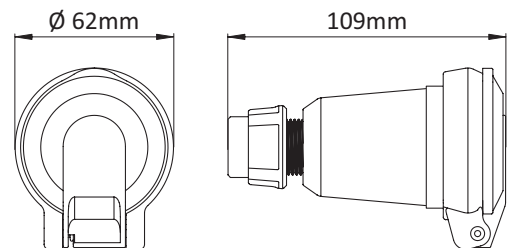

Part No.	Colour	Shutter	Standard
A10000080	Black	No	SCHUKO
A10000081	Red	No	SCHUKO
A10000082	Blue	No	SCHUKO
A10000083	Orange	No	SCHUKO
A10000076	Black	Yes	SCHUKO
A10000077	Red	Yes	SCHUKO
A10000078	Blue	Yes	SCHUKO
A10000079	Orange	Yes	SCHUKO
A10000091	Black	Yes	French/Belgian
A10000092	Red	Yes	French/Belgian
A10000093	Blue	Yes	French/Belgian
A10000094	Orange	Yes	French/Belgian

Hightech Connector (with Self-Closing Hinged Lid)

- 2 Pole + Earth, 16A, 250V
- Cable size 3 x 1mm² to 3 x 2.5mm²

- DIN VDE 0620 / NF C61-314, NBN C61-112
- IP54 / IK08

Part No.	Colour	Shutter	Standard
A10000084	Black	No	SCHUKO
A10000085	Red	No	SCHUKO
A10000086	Blue	No	SCHUKO
A10000087	Orange	No	SCHUKO
A10000095	Black	Yes	French/Belgian
A10000096	Red	Yes	French/Belgian
A10000097	Blue	Yes	French/Belgian
A10000098	Orange	Yes	French/Belgian

Expert Plugs and Connectors

Our Expert Series of plugs and connectors are made of robust and durable materials, feature a comfortable grip and are designed primarily for use with the highest mechanical loads used in various industries.

The Expert range offer plugs with a dual earth system and connectors with a protective cover, available in black only. These plugs and connectors are equipped with a quick-release fastener to securely connect the handle and contact carrier and have a triple laminated seal.

Expert Plug (with Dual Earth System)

- 2 Pole + Earth
- 16A, 250V
- Triple Laminated Seal
- For connection of cable size 3 x 0.75mm² to 3 x 2.5mm²
- DIN VDE 0620 / NF C61-314, NBN C61-112
- IP44, IK08

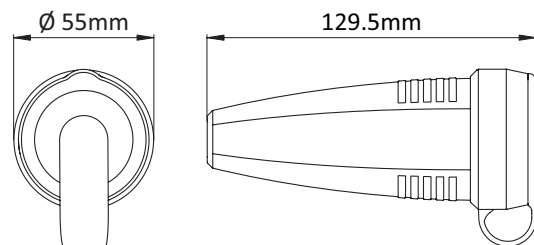

Part No.	Colour	Standard
A10000043	Black	SCHUKO & French/Belgian

Expert Connector (with Protective Cover)

- 2 Pole + Earth
- 16A, 250V
- Triple Laminated Seal
- For connection of cable size 3 x 1mm² to 3 x 2.5mm²
- DIN VDE 0620
- IP44, IK08

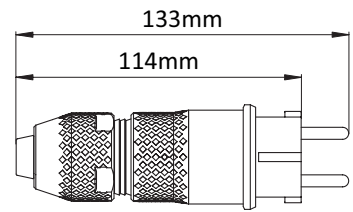

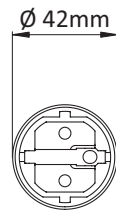

Part No.	Colour	Standard
A10000054	Black	SCHUKO

Professional Plugs and Connectors

Our Professional Series of plugs and connectors are made of high-performance Elamid plastic and are specially designed for use in trade or industry. Their unique 2K technology makes them particularly robust and resistant.

The Professional range offer plugs with a dual earth system and connectors with a self-closing hinged lid and a voltage indicator, available in black, red or grey. These plugs and connectors have a maximum load capacity up to 4 tonnes, are equipped with a quick-release mechanism and include a screwed seal.

Professional Plugs (with Dual Earth System)

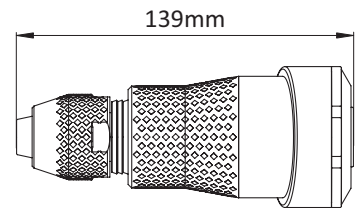

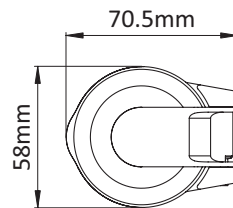

- 2 Pole + Earth, 16A, 250V
- Cable size 3 x 0.75mm² to 3 x 2.5mm²

- DIN VDE 0620 / NF C61-314, NBN C61-112
- IP54 / IK08

Part No.	Colour	Standard
A10000068	Black	SCHUKO & French/Belgian
A10000069	Red	SCHUKO & French/Belgian
A10000070	Grey	SCHUKO & French/Belgian

Professional Connectors (with Self-Closing Hinged Lid and Voltage Indicator)

- 2 Pole + Earth, 16A, 250V
- Cable size 3 x 1mm² to 3 x 2.5mm²

- DIN VDE 0620
- IP54 / IK08
- Voltage Indicator

Part No.	Colour	Standard
A100000105	Black	SCHUKO
A100000106	Red	SCHUKO
A100000107	Grey	SCHUKO
