

SM - Modular Straightener with Adjustable Rollers

- Modular straightener system – can be adapted to changing future needs by adding further rolls or changing roller spacing
- Can be supplied with or without custom base and cover bars
- Can be combined into multi-plane straightening systems with connecting brackets and/or base plates
- Widest possible range of wire sizes can be processed by changing roller spacing (figures listed are min and max possible)
- Low cost and short lead times as only 2 versions need to be produced/stocked
